

**Fressingfield PC 15 December 2020**

**Suffolk** County Council continues to support Care Homes with equipment and finance.

No one in Suffolk should be financially destitute as money is available to help, especially those in high need and no savings.

WE have had a Zoom Meeting to discuss the way forward for future traffic speed limits possibly reduced to 20 mph on certain roads and better signage on others.

My view is that we should get traffic counts for speed and type of vehicles installed and the PC can be better informed about the issues. Then advise parishioners of proposals and amend as necessary.

Work on the Budget for next year continues.

SCC has agreed to set up an Education and Young People Scrutiny Committee early next year.

I have circulated through the Clerk an explanation of SCC Highways position re the latest Planning Application.

I hope that the news from SCC about the Pandemic that I have forwarded to your Clerk is helpful.

Guy McGregor

County Councillor

Hoxne & Eye Division
